

PROTOCOL PEPTIDES

Certificate of Analysis (Specimen)

DOCUMENT REFERENCE
SPEC-SL5610-01BATCH / LOT
SL5610DATE OF ANALYSIS
2026-07-04

Selank

Batch SL5610

PRESENTATION

Pre-mixed liquid, 3ml vial

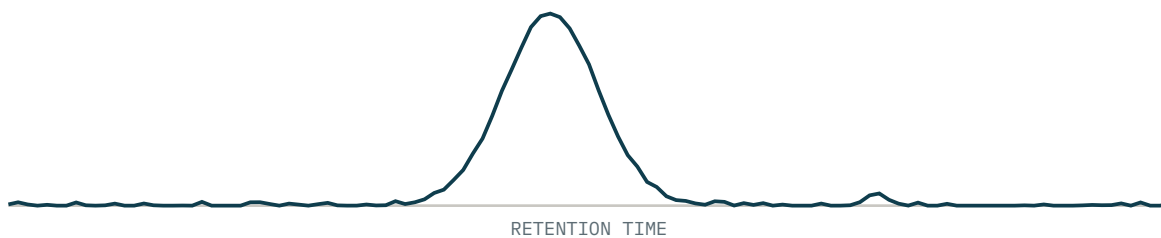

MOLECULAR WEIGHT

751.9 g/mol

PARAMETER	METHOD	RESULT (SPECIMEN VALUE)
Purity	HPLC	97.8%
Identity	Mass spectrometry	Consistent with expected mass

Two methods are used: high-performance liquid chromatography and mass spectrometry. No other analysis is performed or implied. Results relate solely to this batch and do not warrant any other batch.

ILLUSTRATIVE TRACE, SPECIMEN DOCUMENT

LABORATORY: NOT NAMED. NO ACCREDITATION IS CLAIMED FOR THIS SPECIMEN DOCUMENT.

Specimen notice

This document is a SPECIMEN produced to demonstrate the Certificate of Analysis format used on protocolpeptides.co.uk. It does not report a genuine analytical result, it names no laboratory, and it carries no accreditation, certification or regulatory mark of any kind. It must not be relied upon as evidence of the identity, purity or safety of any substance.
